Technical Skills

Languages and Databases: JavaScript (ES6), Python, Java, C, HTML, CSS, MongoDB.

Frameworks and libraries: React.js, Formik, jQuery, Axios, Handlebars, Tailwind CSS, Node.js, Express.js.

Tools: Git, GitHub, Postman, VS Code.

Experience

Naresh I Technologies

October 2023 – December 2023

Full Stack Developer Intern

Hyderabad, India

- Designed and developed a full-stack **E-commerce web application**, implementing features like user authentication, shopping cart, product catalogue, and payment gateway integration.
- Built responsive, **cross-browser compatible UI** using HTML5, CSS3, and JavaScript, ensuring a seamless user experience across devices.
- Developed and consumed **RESTful APIs** using Node.js and Express.js to manage product and user data efficiently.
- Utilized **MongoDB** for database management, optimizing queries for high-performance data storage and retrieval.
- Integrated third-party libraries like **Axios** for API requests and **jQuery** for dynamic front-end interactions.
- Applied best practices for **version control** using Git and collaborated using GitHub.

Projects

LensCraft – Photo Gallery Web Application | MERN Stack (*MongoDB, Express.js, React.js, Node.js*), *RESTful APIs*

- Designed and developed a **responsive full-stack photo gallery application** using the MERN stack.
- Engineered secure **user authentication** and session management using cookies for state preservation.
- Implemented features for users to **browse categorized galleries** (nature, wildlife, bikes), **like/dislike images**, and **add/delete comments** dynamically.
- Built scalable **RESTful APIs** to handle CRUD operations for photos, comments, and user ratings.
- Optimized **frontend performance** by leveraging React component-based architecture and efficient state management.
- Integrated **advanced routing** for seamless navigation and better user experience.
- Ensured a mobile-first design approach for **enhanced cross-platform compatibility** and usability.

E-Shopping Web Application | HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

- Developing a full-stack e-commerce platform, focusing on user authentication, product search, shopping cart, and order management features.
- Implementing dynamic front-end design with HTML, CSS, JavaScript, *ReactJS* and building robust back-end functionality using Node.js, Express.js, and MongoDB for data handling and scalability.

Awards & Achievements

- Won First prize at Decode hunt event organized at my institute.
- Won Third position at Laconics Coding Contest.
- Participated and organized various events in college such as Technofest, Hackathon, Impulse.

Education

Dr. Babasaheb Ambedkar Technological University

2022 – 2025

B.Tech in Computer Engineering

Cum. GPA: 7.4

Maharashtra State Board of Technical Education

2020 – 2022

Diploma in Computer Engineering

Percentage: 82.57
