OBJECTIVE

An enthusiastic Computer Science student eager to kick-start my career with Cognizant. With hands-on experience in full stack development, strong foundations in Java and SQL, and a mindset that thrives in collaborative environments, I'm excited to contribute, learn, and grow alongside passionate tech professionals. Ready to embrace new challenges and build impactful digital solutions that shape the future.

TECHNICAL SKILLS

- Languages: JavaScript, Java, Python, C.
- Web Technologies: HTML5, CSS3, JavaScript, React.js, Node.js, Express.js.
- Database: MySQL, MongoDB, ANSI SQL.
- Cloud & Dev Tools: Basics of Cloud Computing, Git, GitHub, Postman, Visual Studio Code, MongoDB Compass.
- Concepts: Object-Oriented Programming (OOP), RESTful APIs, Responsive Web Design, Agile Development.

EDUCATION

B.Tech in Computer Engineering	2022 - 2025
SSVPS's Bapusaheb Shivajirao Deore College of Engineering, Dhule	CGPA: 7.4/10
Diploma in Computer Engineering	2020 - 2022
SSVPS's Bapusaheb Shivajirao Deore Polytechnic, Dhule	Percentage: 82.57%

TRAININGS OR CERTIFICATIONS

- Full Stack Web Development - Naresh i Technologies.
- Core Java certification - Naresh i Technologies.

PROJECTS

LensCraft – Photo Gallery Web Application | MERN Stack (MongoDB, Express.js, React.js, Node.js). [GitHubLink](#)

- Designed and developed a responsive full-stack photo gallery application using the MERN stack.
- Engineered secure user authentication and session management using cookies for state preservation.
- Implemented features for users to browse categorized galleries (nature, wildlife, bikes), like/dislike images, and add/delete comments dynamically.
- Built scalable RESTful APIs to handle CRUD operations for photos, comments, and user ratings.
- Optimized frontend performance by leveraging React component-based architecture, Integrated advanced routing for seamless navigation and better user experience.

INTERNSHIP

Front End Developer Intern **Oct 2024 - Feb 2025**

LogicUnion | Tech Stack: React.js, JavaScript, HTML5, CSS3, Git

- Built responsive, component-based UIs using React.js and modern JavaScript (ES6+).
- Integrated RESTful APIs and managed application state for dynamic data rendering.
- Improved front-end performance by optimizing rendering cycles and code modularity.
- Participated in Agile sprints and code reviews, gaining real-world collaboration experience.
- Used Git for version control and teamwork in a fast-paced development environment.
